PROFESSIONAL SUMMARY

Automation Specialist and AI Operations professional with a Computer Science background, delivering scalable automation, data governance, and regulatory intelligence solutions for finance and government-focused organizations. Demonstrates leadership through system ownership, cross-team coordination, and onboarding support, while leveraging AI and low-code technologies to improve operational efficiency and decision-making. Highly adaptable, impact-driven, and committed to empowering teams through data-driven and compliant technology solutions.

EDUCATION

FEU INSTITUTE OF TECHNOLOGY - B.S. in Computer Science with specialization in Software Engineering

Sep 2020 – Oct 2024

- Cumulative GPA 3.5/4.0, Cum Laude
- Top Performing Student (A.Y. 2020- 2023)
- President's Scholar (A.Y. 2020-2023)
- Techno Fair 2022: Pitching Competition Champions
- ACM Tech Trials -1st Runner-up
- iTam Design Jam 2022: Pitching Competition 1st Runner-up
- CS Expo 2023 V2.0 – Best AVP
- Outstanding Leadership Award – A.Y. 2021-2023
- Nationwide: AcadArena Scholar for Leadership Silver Awardee

WORK EXPERIENCE

BLOCH.AI – United Kingdom

October 2025 – Current

• Automation Specialist and Consultant

- Designed and implemented automation and AI-driven workflows using n8n, Baserow, and LLM-based tools, improving operational efficiency and reducing manual processes across teams.
- Supported data governance and legislative tracking initiatives by processing and maintaining 20,000+ structured records and delivering weekly summarized regulatory updates to European government stakeholders.
- Contributed to internal enablement by developing AI-focused course materials and maintaining automation documentation, with resources published on the company website and shared across 12+ finance and government entities across Europe and the Middle East to support cross-team and cross-organization alignment.

YOU_SOURCE INC.

• Yebo Fresh Admin and Delivery Portal – Full-stack Software Engineer

February 2024 – July 2025

- Completed a 6-month roadmap in just 4 months, accelerating delivery by 33% through agile sprint planning and proactive iteration.
- Implemented key features across backend (REST APIs, DB optimization) and frontend (UI/UX), improving performance by 25%.
- Contributed 25+ code reviews and 10+ refactors, cutting technical debt by up to 32%, and integrated AI static analysis tools for consistent code quality.

• YS-AI Training Bot – Full-stack Software Engineer

July 2024 – January 2025

- Developed a 6-module AI-powered web application focused on employee growth and company practices, benefiting 60+ employees.
- Gained experience in AI API integration, Docker, and YAML-based configuration, enabling 100% repeatable builds & reducing deployment time by 37%.
- Received a 92%+ internal satisfaction rating in post-deployment surveys for usability, usefulness, and performance.

• YS-LLM (LLM Coding Assistant) – Full-stack Software Engineer

July 2024 – November 2024

- Researched and benchmarked 3+ LLMs (GPT, Claude, DeepSeek), evaluating their strengths across strategic core areas.
- Contributed to the development of a custom internal AI assistant improving engineering task efficiency by an estimated 25–35%.

• Pine Connector – Software Engineer Intern

December 2023 – June 2024

- Raised unit test coverage from 36% to 78% in 5 months, enhancing system stability and test reliability across core modules.
- Improved engineering standards by introducing TDD practices and optimizing CI test pipelines for faster feedback cycles.

ESPORT AND TECHNOLOGY INDUSTRY - Freelance Host and Shoutcaster

Jan 2021 – Current

- Hosted and casted 80+ events for top brands including Samsung, Predator Gaming, Mineski Events, TNC Productions, UAAP, VCT, and CFS.
- Known for clear communication and seamless collaboration with production teams, co-hosts, and clients in high-pressure live settings.
- Delivered insightful, high-energy coverage while balancing college, maintaining a 100% project success rate.

LEADERSHIP EXPERIENCE

Association for Computing Machinery – ACM Student Chapter Director for Membership

Sep 2022 – Jul 2023

- Spearheaded 36% increase in student membership, growing to 470+ active members verified through y-o-y membership databases.

Association for Computing Machinery – ACM Student Chapter Director for Publications

Aug 2020 – Jun 2021

- Produced written content for organization-wide use, utilizing a cohesive and reader-centric writing style to drive engagement.
- Contributed to the recognition of the Best Student Organization of the Year by enhancing clarity & accessibility of communication materials.

FEU Institute of Technology – iTamaraws Sports Club President

Aug 2020 – Jul 2023

- Led the organization through a major growth phase, expanding membership from 70+ to 280+ through effective marketing and campaigns.
- Structured and scaled the leadership team from 18 to 60+ officers to support rapid organizational growth.

Freshmen Society - Computer Science Representative

Sep 2022 – Jul 2023

- Key liaison for CS freshmen (over 3,000 students), ensuring continuous engagement and representation through active coordination.

COMPETENCIES

N8n | Baserow | KNIME | Gamma | API integration | Python (Django) | Javascript (React, Node, Next) | OpenGL | Canva | Google Suites | PM platforms (Jira, Trello, Azure, Microsoft 365, Notion) | AI Tools (OpenAI, Claude) | Azure Devops | Google Cloud Platform | Firebase

CERTIFICATION AND TRAINING

GenAI for Front-end Developers 2025 | IBM: Generative AI for Software Developers Specialization 2025 | Django Bootcamp: Zero to Mastery 2025 | React.js Boot Camp: Zero to Mastery 2025 | Google Agile Project Management 2025 | TOPCIT – Level 3 2023 | Cisco: CCNA – DevNet Associate 2023 | Cisco: CCNA – Intro to Networks 2022 | Certificate from Information Technology Specialist: Java 2021 | Certificate from Information Technology Specialist: Python 2022
